About Level 7 Solutions, LLC

Level 7 Solutions, LLC is a premier web design and application development company specializing in custom websites and web applications for small and medium-sized businesses.

Founded in 2001, by Colin Mason, Level 7 Solutions has grown and developed in to one of the most recognized providers of websites and internet-related technologies in North Houston. Although we have clients all over the country, we focus mainly in the Houston and North Houston areas.

Level 7 Solutions works with businesses of any size to determine the best possible solutions for web design and web-based services. From our simple 5-page websites, to large e-Commerce shopping carts we can bring business, exposure, respect and professionalism to your business. Our custom developed applications can help bring up the level of automation, productivity and efficiency to your staff and customers and bring down the level of stress and frustration.

Award Winning

Best Website in the Nation! Level 7 Solutions won first prize in the Divisional Website contest at the National Convention of the Sports Car Club of America in Topeka, KS. The SCCA is a national club of pro and amateur road racing drivers and enthusiasts, with over 70,000 members in the U.S. Level 7 Solutions is proud to be awarded the best website in the nation in the divisional website category for it's work in developing the website and web-based race worker event registration application for the Southwest Division SCCA: <http://www.sowdivscca.org>.

Level 7 Solutions ranked #8 in Top Web Design and Web Development companies in Houston by the Houston Business Journal as published in the August 19-25, 2005 edition.
